Part II. Self-Assessment

The Town of Mashpee has completed the required self-assessment and has determined that our municipality is in compliance with all permit conditions, except for the following provisions:

- | | |
|----------------|---|
| Part 1.B.2.(k) | The Town applied for a Coastal Zone Management grant during the FY07 funding round for a stormwater mitigation assessment of Popponesset Bay. The grant was not selected for funding. The Town has not made any other progress yet toward implementing a water monitoring program so any discharges have not been conclusively determined to be contributing to exceedance of water quality standards. Until such a program is developed and implemented, the Town will continue to eliminate direct discharge from roadways, with those roadways targeted where discharge is to a surface water. |
| Part 1.B.2.(l) | See above. |
| Part 1.C. | See above. |
| Part 1.D. | See above. |
